Date: August 11, 2024

To whom it may concern,

I am writing to recommend Mr. Anmol Acharya for any position or opportunity that requires a dedicated and knowledgeable individual with a strong foundation in computer science. During his time as a teaching assistant at Kathmandu University, Mr. Acharya has demonstrated exceptional skills in both teaching and technical expertise in **COMP 116: Object-Oriented Programming** (C++).

During his tenure as a teaching assistant (March 2024-ongoing), expected to last six months, Mr. Acharya has exhibited commendable teaching skills and a solid grasp of the subject matter. He was responsible for leading lab sessions, assisting students with programming concepts, and ensuring that the curriculum is delivered effectively. His ability to simplify challenging tasks and his dedication to enhancing student learning were well-received by both students and faculty. He also demonstrated strong organizational skills by managing lab sessions efficiently, grading assignments promptly, and providing constructive feedback that helped students improve their programming abilities.

In addition to the aforementioned tasks, Mr. Acharya has also played a crucial role in the technical supervision of student group projects. He guided teams through the process of project development, from initial concept to final implementation, ensuring that each project met the set standards. He provided valuable insights into software design, code optimization, and debugging techniques, helping the students apply the principles of collaborative coding and real-world application development. Mr. Acharya's ability to manage and mentor groups of students through their projects not only showcased his technical knowledge but also his strong leadership and communication skills.

Mr. Acharya consistently demonstrated professionalism, effective communication, and a strong commitment to the course's success. He carried out his responsibilities with diligence, adhered to deadlines, and fostered a positive learning environment.

Based on his remarkable performance as a teaching assistant for COMP 116, I confidently recommend Mr. Anmol Acharya for any position focusing on object-oriented programming and C++. His ability to engage students, convey concepts clearly, and contribute to a positive learning experience makes him a valuable asset to any educational institution.
